ABOUT S. S. DEMPO COLLEGE OF COMMERCE AND ECONOMICS

S. S. Dempo College of Commerce & Economics, Altinho, Panaji, Goa, established in 1966 by the Goa Education Society, under the Chairmanship of Shri Vasantrao S. Dempo, a leading industrialist of Goa, is the oldest and the most highly reputed institution for undergraduate commerce education (B.Com) in the state. It is presently managed by the Dempo Charities Trust, Panaji, led by the dynamic scion of the Dempo family, Mr. Shrinivas Dempo. The fundamental objective of the college is to produce educated men and women, possessing domain knowledge, professional competence and above all, moral character, to work in the spheres of trade, commerce, finance and industry. Having scrupulously lived up to its objective, the college, which is affiliated to the Goa University, has produced commerce graduates who make up the who's-who of the business and commercial firmament of Goa. In keeping with the changing demands of education, the college has now also diversified its academic programs to provide a strong foundation through the industry-linked undergraduate program in Business Administration (B.B.A.), the Post Graduate program in Commerce (M.Com). In addition, the college has introduced industry specific programs under the innovative program scheme of the UGC, the new Post Graduate Diploma in Business Administration with specialisation in Event Management and the more recent, M. A. in Tourism and Heritage Management Program. The college prides itself in empowering students to step out into a competitive professional world with competence and confidence.

ABOUT GOA

Known as "Pearl of the Orient" and a "Tourist Paradise", the state of Goa is located on the western coast of India in the coastal belt known as Konkan. It is a strip of land 110 km long and 60 km wide, between the Sahyadrí range of the Western Ghats and the Arabian Sea. The swaying palms, white sands and sparkling waters of Goa attract millions of tourists every year. The magnificent scenic beauty and the architectural splendours of its temples, churches and old houses have made Goa one of the top most international tourist destinations. But then, Goa is much more than just beaches and sea. It has a soul which goes deep into unique history, rich culture and some of the most picturesque landscapes.

CONCEPT NOTE

India is an ancient land where innumerable civilizations thrived. It is a country which has withstood the ravages of time and upheld its identity as an independent, self-reliant nation. Prof. Arnold Toynbee, a famous British Historian could not have been more correct when he stated in the mid 20th century - "It is already becoming clear that a chapter which had a western beginning will have to have an Indian ending if it is not to end in the self-destruction of the human race. At this supremely dangerous moment in history, the only way of salvation for mankind is the Indian way."

India is a land of spirituality and diversity. A country that is the abode of over 17% of the global population, it is a nation that is vibrant with the dream of its people. India of the 21st century is not just a nation, but a dream - a vision of countless souls aspiring to belong to a strong, self-reliant, powerful and developed nation.

Rare are the moments in history when a nation suddenly captures the imagination of the world. A large number of scholars believe, for India, those rare moments have arrived. India’s achievements in various fields in the past few decades have been remarkable. On one hand, the general elections of 2014, the largest electoral exercise held in human history, showcased the entrenched strength of the vibrant democracy in India, and on the other, its emergence as the fastest growing economy surpassing China’s economic growth rate, announces India’s arrival as a global power. India’s advantages and opportunities to further consolidate its position also emerge from its strategic location, enviable demographic structure, global diaspora, well developed foreign relations, its military strength, advances in science and technology and above all its strong pluralistic culture. However, there are very valid contrarian views that are skeptical about India’s rise as a global power. The skeptics point out that widespread poverty, neglect of infrastructure and education, rigidity of labour laws, red tape bureaucracy and corruption have resulted in structural distortions that are difficult to rectify.

This International Conference aims at providing a platform to facilitate the process of constructive deliberation that would allow academicians, researchers, scholars and policy makers to exchange, debate and discuss their ideas and views about the opportunities and challenges that India faces on its path to be reckoned as a global power.

CONFERENCE SUB-THEMES

- India’s influence on the global economy
- India’s growing technological dominance
