

## **Collaborating institution for drafting retail policy document for the Government of Goa.**

S.S. Dempo College of Commerce and Economics was appointed to collaborate with Goa Chamber of Commerce and Industries, a well-known non-profit, networking organisation which provides support services to the business community of the state, to draft the retail policy document for submission to the Government of Goa. The college believes in contributing to the betterment of its stakeholders i.e., the trade and commerce establishments. Ours being a premier commerce college in the state was entrusted with this prestigious responsibility of drafting the retail policy for the Government of Goa. The retail policy was designed keeping in mind the following objectives: 1. Examining the need for a State Retail Policy and challenges faced in retail business. 2. Assessing the role of the State government and opportunities for retail trade in Goa. 3. Studying the existing provisions and procedures for financing, licensing and inspection, supply chain and logistics, metrology and identifying scope for improvement. 4. Studying the existing regulations for employment, compensation and employee welfare, skill development. 5. Interacting with retailers within the State of Goa and other stakeholders for identifying specific issues of retail in Goa and drawing suggestions.
